To Our Valued Clients and Business Partners:

In response to advice received from the leading national and international health organizations and personnel, we have elected to have the entire NIS team work from their respective homes. We are joining the private and governmental sector efforts to reduce exposure of our team to potential carriers of the COVID-19 Virus through the practice of "Social Distancing."

We have previously established a Business Continuity Plan (BCP) to guide our team in the event of a natural or man-made event that prevents our team from working in our offices. The redundancy and contingency plans that have been in place have allowed us to enact the Social Distancing Protocol for the well-being of our staff and to ensure continued service to our clients.

As we navigate these days of market volatility and rapid fire news and analysis, we are committed to maintaining open lines of communication with each of you. If you have any questions or feedback for our team, please contact us at the contact numbers provided below.

Sincerely,

Robert Brooks, CEO
